

I am Polina (Polly) Kutana, I study Management at the Faculty of Economics and Business Administration at Vilnius University. I would like to apply for the position of Human Resources Coordinator at "Be etikečių".

I joined the program in September 2023. I have been helping with organizing events and have been an active member who wants to participate in the life of the organization more and contribute to future activities.

This is why I want to get this position, I believe that I have qualities that are necessary for a position whose main goal is to make the organization welcoming and comfortable. I am a very social person with high skills in communication and organization. I plan to take part in organizing future events and implementing new ideas into the structure of the program.

Thank you for your time,

Polly Kutana.
